

ISR – INTERCO SHIPPING RECORD

GUIDELINE – 02/10/2011

PREAMBLE

The purpose of this document is to provide all TLD employees and managers with the basic guidelines to effectively navigate through the ISR module. The first section of this document provides overall principles while the second part describes details to use the module.

GLOSSARY

Here are some of the TLD acronyms:

- ISR: Interco Shipping Record
- PS: Packing Slip
- PO(L): Purchase Order (Line)
- SO(L): Sales Order (Line)
- BU: Business Unit
- ETA: Estimated Date of Arrival
- UM: Unit of Measurement
- PN: Part Number

INTRODUCTION

GS (Group Sourcing) is the main supplier for all sister company in the TLD world. All shipments are made overseas and, in order to improve communications, follow up, documents validity and transportation process, the module ISR has been created.

PRINCIPLE

After the items are loaded into the container by GS the outbound is released and a packing slip and invoice is printed.

Similar to the tracking module developed for spare parts a web page can be used to link the packing slip number(s) to an ISR number.(note: normally there will be multiple packing slip numbers per container). External files (customs documents, etc) can be scanned and linked to the ISR number.

Because the packing slip number is linked to a sales order line it is possible to get the item number and description as well as the quantity shipped and the date out-bounded. From the sales order line for orders received through EDI it is possible to get the buying companies purchase order number and line number.

A field can be added to e-vendor open PO lines page to show the ISR linked to the corresponding sales order. Clicking on this link will open the ISR with access to the external docs and the other detail.

1) Module

The module is located under MFG/PUR/ISR like below:

Manufacturing\Purchasing\ISR

Home | Personnel | eVendors | Xref | PO | **ISR (ALPHA)** | VWC | RFQ | Std Cost | Reports
Home | By number | Search | Create | Reports | Maintain ISR

ISR module Homepage

Welcome to the Interco Shipping Record Module Homepage

ISR Count by BU to, Status

	PENDING	IN PROGRESS	CLOSED	Totals
TLD MTL	1	1		2
TLD WUX	1	1		2
Totals	2	2		4

ISR Count by BU from, Status

	PENDING	IN PROGRESS	CLOSED	Totals
TLD MTL	1	1		2

2) Create ISR

To create an ISR, hit the link “create”:

Manufacturing\Purchasing\ISR

Home | Personnel | eVendors | Xref | PO | **ISR (ALPHA)** | VWC | RFQ | Std Cost | Reports
Home | By number | Search | **Create** | Reports | Maintain ISR

Then enter all information needed in the form and submit:

New ISR

*BU from

*BU to

*ERP Customer#

*Transportation type

Container#

Tracking#

Start with ups, dhl, fed etc. followed by #

*Outbound Date 2011 - 11 - 02

*Shipping Date 2011 - 11 - 02

*ETA Date 2011 - 11 - 02

Notes

Shipping document

Quality document

Invoice document

3) Packing Slip / ISR lines

Now that you have created your ISR which represent your container, you need to link all packing slip created during the outbound for all items entered in it. We can call them ISR Lines also.

So, once you are viewing your ISR like below, go to the line section:

Manufacturing\Purchasing\ISR\ISR#3

Home | Personnel | eVendors | Xref | PO | ISR (ALPHA) | VWC | RFQ | Std Cost | Reports
Home | By number | Search | Create | Reports | Maintain ISR
General | Edit | Lines | Tasks | Files | Log | Status | Admin

WARNING: Shipping document missing
WARNING: Quality document missing
WARNING: Invoice document missing

General

ISR#	3
Creation Date	2011-07-04 10:16:32
Poster	Julien LAMBERT
BU from	TLD MTL
BU to	TLD WUX

3-a Link packing slip

To add a packing slip to your ISR, click on the “Add line” link and select all packing slip you have created during the outbound.

Manufacturing\Purchasing\ISR\ISR#4\Lines

Home | Personnel | eVendors | Xref | PO | ISR (ALPHA) | VWC | RFQ | Std Cost | Reports
Home | By number | Search | Create | Reports | Maintain ISR
General | Edit | Lines | Tasks | Files | Log | Status | Admin
PUR view | ACCT view | Add Line

Manual entry

Packing Slip#

Or select Packing Slip from TLD SHA

- Outbouded since a month
- And not linked to an another ISR

Pack#16446 ☐ PO#580832 created the 2011-11-01
- Line#3 PN#10004221 MURPHY GAGE, CHINESE Qty -1
- Line#4 PN#10004221 MURPHY GAGE, CHINESE Qty -1

Pack#16445 ☐ PO#580832 created the 2011-10-31
- Line#1 PN#10004221 MURPHY GAGE, CHINESE Qty 1
- Line#2 PN#10004221 MURPHY GAGE, CHINESE Qty 1

Pack#16441 ☐ PO#580831 created the 2011-10-30
- Line#1 PN#4133169 FASTENER, HOUSING (TPX200) Qty 1
- Line#2 PN#4200005 BUMPER, LARGE, 200X80XH80 Qty 1

Pack#16431 ☐ PO#522472 created the 2011-10-28
- Line#2 PN#1052194 GPU 90 KVA Qty 1

Pack#16375 ☐ PO#522646 created the 2011-10-26
- Line#1 PN#1013470 SEAL, CABLE Qty 10

Pack#16374 ☐ PO#522624 created the 2011-10-26

3-b Unlink packing slip

To unlink a packing slip, just hit the link under the column “Unlink Pack”

ISR Lines structured by Packin slip and Sales Order

1880 ▾

	Item#	Part Number	Description	UM	Qty	Del	Back	Status (7=Shipped)	SO#	Delivery Date	PO#	Unlink Pack#	
1880	800316	19	2333005	TUYAU METALLIQUE FLEX INOX DAC	MTR	10	8	2	7	800316	2011-06-21	490250	1880

4) Status changes

To change the status of the ISR, go to the status section as below:

Manufacturing\Purchasing\ISR\ISR#4

[Home](#) | [Personnel](#) | [eVendors](#) | [Xref](#) | [PO](#) | [ISR \(ALPHA\)](#) | [VWC](#) | [RFQ](#) | [Std Cost](#) | [Reports](#)
[Home](#) | [By number](#) | [Search](#) | [Create](#) | [Reports](#) | [Maintain ISR](#)
[General](#) | [Edit](#) | [Lines](#) | [Tasks](#) | [Files](#) | [Log](#) | [Status](#) | [Admin](#)

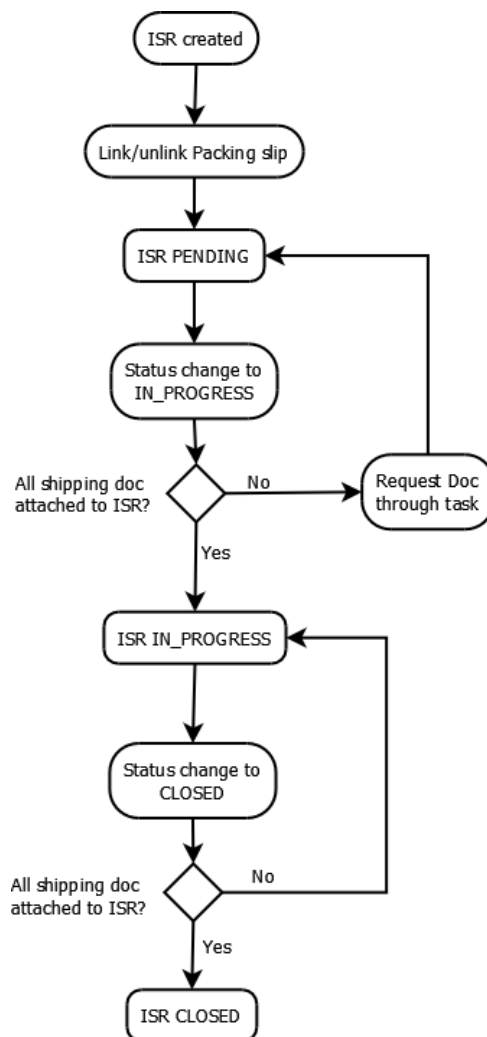

Change status

*New Status

* denotes required field

Workflow:

Status definition:

- **PENDING:** The container is under preparation. The supplier outbound the goods and put it in the container. Finally, he links packing slip to the ISR.
- **IN_PROGRESS:** All packing slip for all goods entered in the container are linked to the ISR and shipping documents are ready and uploaded. If not, a task has been created to request these documents and upload it ASAP! The container is under transportation (by sea or air).
- **CLOSED:** The container have been received to the BU who has ordered the good.
