

CRT MODULE - HELP GUIDE

INTRODUCTION

A Customer Relationship Team represents the TLD team for a specific customer with a TLD representative for Sales, Parts and Service department. Also, the CRT allows us to make a link between the customer in BAAN and the customer, called eCustomer, in our INTRANET. That way, we can pull out any baan data, such as sales orders, invoices etc, for a specific customer.

CREATE

Go to SALES/CRT and hit the link “New”.

Step 1:

Select the ERP Company and submit.

Sales Module\CRT Module\Add CRT
[Home](#) | [Personnel](#) | [Catalogue](#) | [Equotes](#) | [GSE/AC Data](#) | [eCus](#)
[SOL](#) | [ESR \(BETA\)](#) | [Sales Areas](#) | [Sales Activity](#) | [Sales Activ](#)
[Home](#) | [By Number](#) | [Search](#) | [New](#) | [Reports](#) | [Maintain CRT](#)

Add New CRT - Step 1

*ERP Company

* denotes required field

Note: In selecting the erp company here, the system will look for all baan customers and it is “cuno” associated so you do not need to know it or look for it for the next final step.

Step 2:

Fill in the form bellow and submit.

Sales Module\CRT Module\Add CRT
[Home](#) | [Personnel](#) | [Catalogue](#) | [Equotes](#) | [GSE/AC Data](#) | [eCustomers](#) | [CRT](#) | [Extranet User](#) | [Competition](#) | [Questionnaire](#) | [ODP](#) | [Inventory](#) | [SO](#) | [SOR](#)
[SOL](#) | [ESR \(BETA\)](#) | [Sales Areas](#) | [Sales Activity](#) | [Sales Activity2](#) | [SFR](#) | [FCR](#) | [SQR](#) | [SQRL](#) | [SQE](#) | [MIM](#) | [Reports](#) | [KPI](#) | [CCR \(ALPHA\)](#)
[Home](#) | [By Number](#) | [Search](#) | [New](#) | [Reports](#) | [Maintain CRT](#)

Add New CRT - Step 2

*Customer

*Customer Number in ERP system, Name (Customer ID#)

*Sales rep

*Parts rep

*Services rep

*Parts Location

*Services Location

* denotes required field

eCustomer
(from Intranet)

Baan customer
(from BAAN ERP)

Notes: If in the eCustomer field you can not found your customer, you will need to go to SALES/eCustomer and submit a new customer creation request. You will not be able to create a CRT without an eCustomer record.
