

QUICK HELP - CUSTOMER ADDRESSBOOK

REQUIREMENTS

- Address book: get a record of all contacts information for all of our customers
- Extranet user database: to upgrade a contact from the address book to a extranet user
- CRT & Roles system: to link this contact or extranet user to BAAN

STRUCTURE & FIELD KEYS

1) Address book

Address Book Contact
Name
Lastname
Company
Phone
Email
Etc...

2) Extranet User

Address Book Contact
+ Userid
+ Password
+ enable
+ type

WARNING: This information will only allow the user to login; all features could not be available without configuring/linking the customer name.

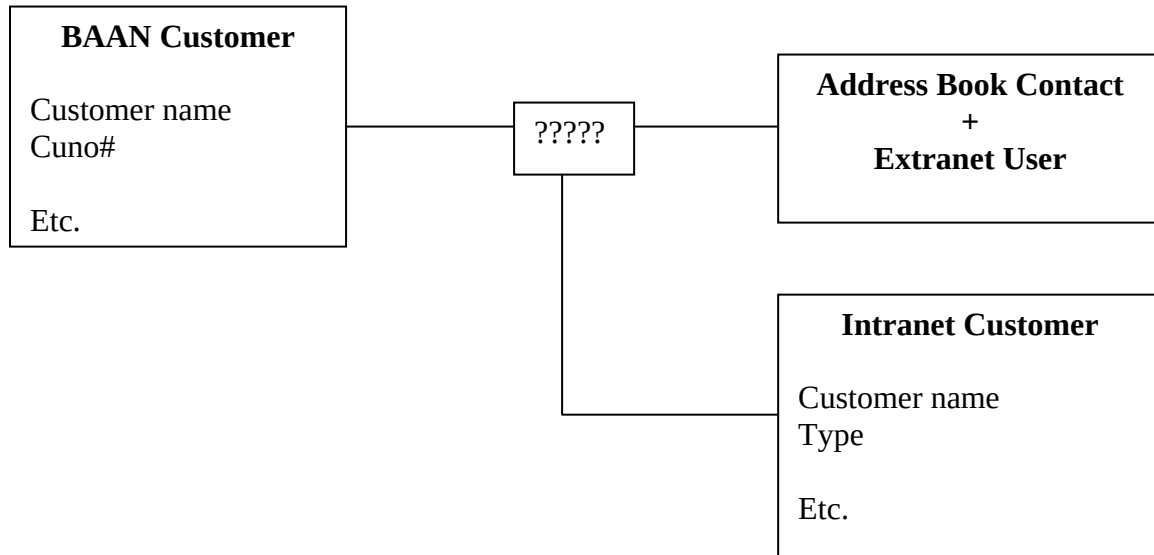

3) CRT & Roles

BAAN keys to get customer information in BAAN

- Customer number (cuno#)
- Company number (erp#)

PROBLEMS:

- How to link the extranet user or contact to BAAN?
- Who are the representatives for this contact?
- What are the default locations?
- Configure the contact to receive an automatic notification?
- Make notifications flexible?
- Know the default address for delivery, billing etc.?

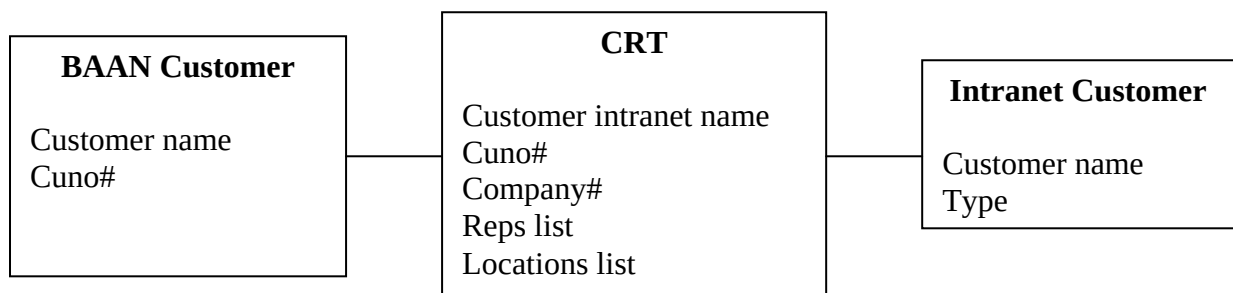

SOLUTION:

- How to link the extranet user or contact to BAAN? **CRT**
- Who are the representatives for this contact? **CRT**
- What are the default locations? **CRT**
- Configure the contact to receive an automatic notification? **CRT + ROLES**
- Make notifications flexible? **CRT + ROLES**
- Know the default address for delivery, billing etc.? **CRT + ROLES**

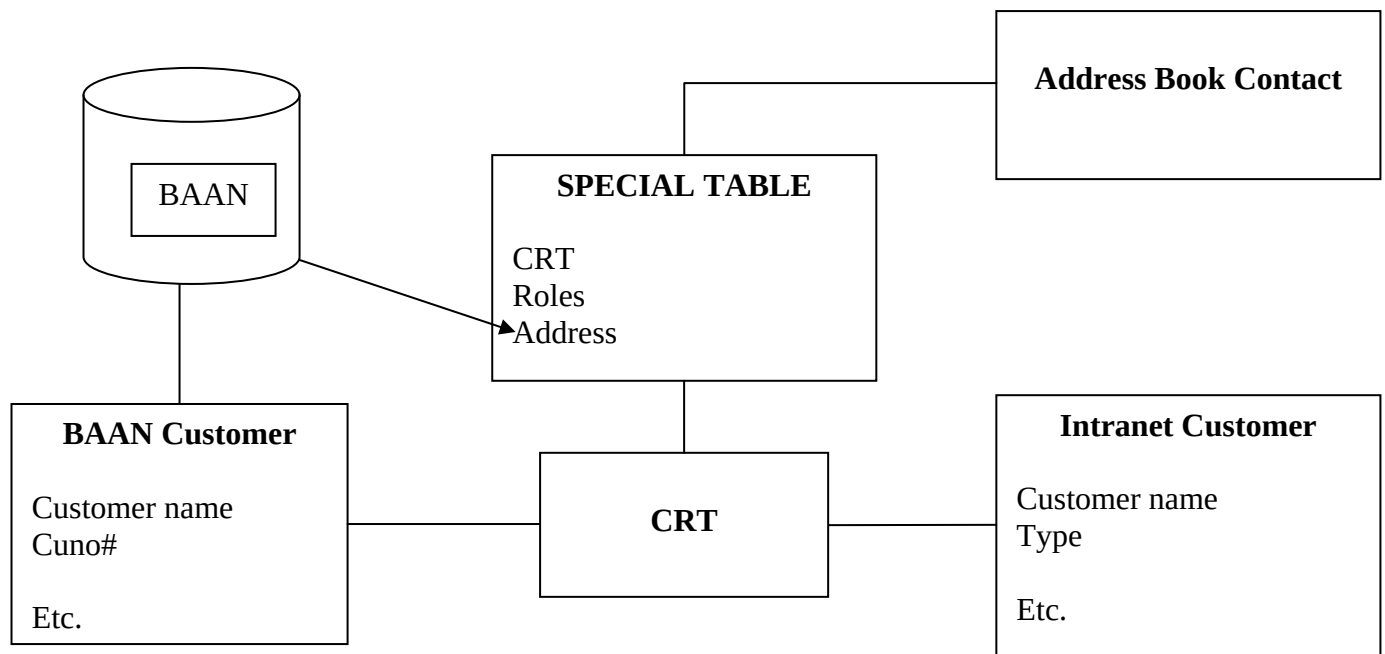

CRT STRUCTURE:

CRT = Customer Relationship Team
Module located under SALES >> CRT

As you can see in the CRT we have the Cuno# and the Company#, so now we will be able to link the intranet customer to BAAN with CRT datas.

ALL together:

MODULE

To access the extranet user or customer address book module, go to SALES/Extranet User.

Sales Module\Extranet User

Home | Personnel | Catalogue | Equotes | GSE/AC Data | Customers | CRT | Extranet User | Competition | Questionnaire | ODP | Inventory | SO | SOR | SOL | ESR (BETA) | Sales Areas | Sales Activity | Sales Activity2 | SFR | SQR | SQRL | SQE | MIM | Reports | KPI | CCR (ALPHA)

Extranet user homepage

Welcome to the Extranet user homepage

Latest Extranet User

Tips: You can sort the table below by clicking the header titles.

Extranet User#	Userid (login)	Lastname	Firstname	Phone	Email	Department	Customer name	Roles
1898	melfilali@tld-europe.com	ELFILALI	MOUB	06	melfilali@tld-europe.com			
1897	service@tld-america.com	Cole	Matt	816-243-2460	service@tld-america.com		REPUBLIC AIRLINES, INC.	role_ST
1896	maogan@havas.net	Aydin	MESUT	+905358554654	maogan@havas.net		HAVAS AIRPORT GROUND HANDLING	role_ST
1893	mg.mir@tas.com.th	GALAI	Ghazi		mg.mir@tas.com.th		AEROCLEAN	
1892		MULLER	ERIC	03 89 90 24 14	eric.muller@swissport.com		SWISSPORT INTERNATIONAL AG / STATION BASEL	
1891		.	Matt	571-354-3176	.		EVERGREEN	
1890		Ford	Ken	859-802-2620	.		DELTA AIRLINES (DL)	
1889		Runespad	Tyler	605-484-0897	n/a		WORLDWIDE FLIGHT SERVICES (WWFS)	
1888		Garcia	Tony	562-254-1604	n/a		PACIFIC AIR CARGO	
1887		DI LAURO	TOMASO	0149	tomaso.di-lauro@euromanory.com		EUROMAN	

CREATE ACCOUNT

1) Create user

To create an entry, click '**Maintain Extranet Users**' as bellow to enter the admin mode.

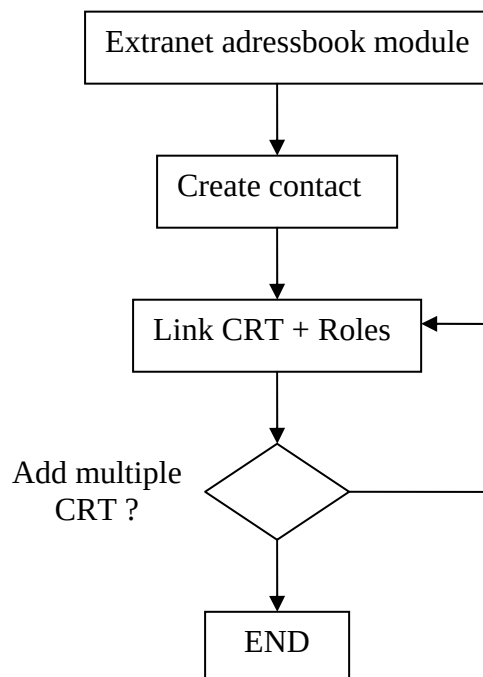

Once into the admin mode, proceed like all other module to create an entry, click 'add'

Now you have the form, fill in all information needed and submit.

Then go **back to module**, the general page of the entry newly created, to assign a CRT and role to the contact.

Summary:

2) Add CRT and roles

What is a CRT?

The CRT or Customer Relationship Team describes the TLD team and misc information for a customer. A CRT will allow us to know for instance:

- What is the parts representative of the customer FEDEX?
- What is the service location for the customer AIR FRANCE?
- What are the customers that have the ASM X as a sales rep?

With this powerful data, we are also able to link any Baan documents or data to a customer contact.

What are the roles? What is a Flat (fl)

Roles describe the way we can split the access to EXTRANET for a contact.

For now, 3 roles have been created:

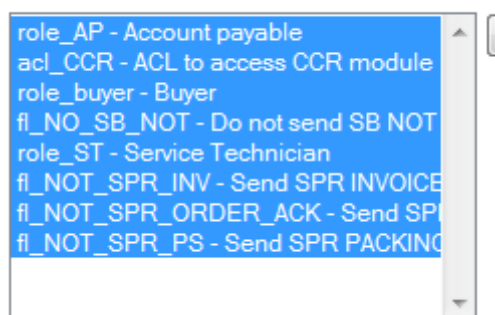

- role_buyer Buyer to receive Order Ack and Packing slip
- role_AP Account Payable to receive Invoices
- role_ST Service Technician to receive SB Notifications

Flat is a way we can split the type of Baan documents to send to the contact.

For now, 4 Flat (fl) have been created:

fl_NO_SB_NOT	Do not send SN Notification
fl_NOT_SPR_INV	Contact will receive invoice automatically by email
fl_NOT_SPR_ORDER_ACK	Contact will receive Sale order Acknowledgement
fl_NOT_SPR_PS	Contact will receive Packing slip and tracking

Available Roles

How to setup CRT and roles?

Once you are in the general page of your contact, click on CRT & roles link as bellow:

Sales Module\Extranet User\Extranet User#1508

Home | Personnel | Catalogue | Equotes | GSE/AC Data | Customers | CRT | Extranet User
Activity | Sales Activity2 | SFR | SQR | SQRL | SQE | MIM | Reports | KPI | CCR (ALPHA)
Home | By number | Search | Reports | Maintain Extranet Users
General | **CRT & Roles** | Log | Edit

General

Ext User#	1508
Salutation	Mr
Lastname	Lambert

Then, 2 scenarios may happen.

Let's say you want to link user#1508 to customer AIR FRANCE

SOLUTION – 1

Step A)

Sales Module\Extranet User\Extranet User#1508\CRT & roles

[Home](#) | [Personnel](#) | [Catalogue](#) | [Equotes](#) | [GSE/AC Data](#) | [Customers](#) | [CRT](#) | [Extranet User](#) | [Competition](#) | [Questionnaire](#) | [ODP](#) | [Inve](#)
[Activity](#) | [Sales Activity2](#) | [SFR](#) | [SQR](#) | [SQRL](#) | [SQE](#) | [MIM](#) | [Reports](#) | [KPI](#) | [CCR \(ALPHA\)](#)
[Home](#) | [By number](#) | [Search](#) | [Reports](#) | [Maintain Extranet Users](#)
[General](#) | [CRT & Roles](#) | [Log](#) | [Edit](#)

[Add](#) 1

INSTRUCTION:

Solution 1 -> Normal process

- a) Select a customer then submit
- b) Select one CRT
- c) Select delivery address and roles

Solution 2 -> If the customer needed is missing in solution 1

- a) Create a new CRT using the form below and submit
- Make sure all fields are filled in!
- b) Select delivery address and roles

Solution 1 -> Customer selection

Customer [nb CRT]

2 3

- 1- click add
- 2- select customer
- 3- submit

Step B)

[General](#) | [CRT & Roles](#) | [Log](#) | [Edit](#)

[Add](#) 1

Customer Relationship Team selection for customer AIR FRANCE (AF)

☐	CRT#1257	AIR FRANCE (AF) - 540 - AF1001	Sales: Denis BERNARD - Parts: David ZIEGLER - Services: Frédéric SILVA
☐	CRT#1270	AIR FRANCE (AF) - 540 - AI1198	Sales: Denis BERNARD - Parts: David ZIEGLER - Services: Frédéric SILVA
☐	CRT#1271	AIR FRANCE (AF) - 540 - AI1200	Sales: Denis BERNARD - Parts: David ZIEGLER - Services: Frédéric SILVA

2

* details required field

- 1- Select CRT
- 2- Submit

Step C)

[Home](#) | [Personnel](#) | [Catalogue](#) | [Equotes](#) | [GSE/AC Data](#) | [Customers](#) | [CRT](#) | [Extranet User](#) | [Competition](#) | [Activity](#) | [Sales Activity2](#) | [SFR](#) | [SQR](#) | [SQRL](#) | [SQE](#) | [MIM](#) | [Reports](#) | [KPI](#) | [CCR \(ALPHA\)](#)
[Home](#) | [By number](#) | [Search](#) | [Reports](#) | [Maintain Extranet Users](#)
[General](#) | [CRT & Roles](#) | [Log](#) | [Edit](#)
[Add](#)

Submit 3

- 1- Select the address (optional)
- 2- Select roles
- 3- Submit

Note: The type of address will be related to the role.

If you choose the role Buyer, then the address would be the delivery address.

If you choose the role Account Payable, then the address would be the billing address.

And so on...

SOLUTION 2:

Solution 2 may happens because you have not found the customer name you wanted into the solution 1. That means no CRT has been created for this customer, so you will need to create a CRT first as bellow:

Step A)

Solution 2 -> Create new Customer Relationship Team

*Customer

*ERP#

*ERP Cuno 1

*Sales rep

*Parts rep

*Services rep

*Parts Location

*Services Location

Submit 2

* Indicates required field

- 1- Fill in the form
- 2- Submit

NOTE:

If again the customer is not listed into the customer select field, you will need to ask the Sales Admin Department to create a new Intranet customer.
Once its done, go back to the solution 2 and create the CRT (step A of solution 2)

Step B)

Then here you are basically on the step C) of the solution 1.

- 1- Select the address (optional)
- 2- Select roles
- 3- Submit

Finally when Solution 1 or 2 are finished, you should have linked the customer Air France with the CRT to the contact like bellow:

Sales Module\Extranet User\Extranet User#1508\CRT & roles

[Home](#) | [Personnel](#) | [Catalogue](#) | [Equotes](#) | [GSE/AC Data](#) | [Customers](#) | [CRT](#) | [Extranet User](#) | [Competition](#) | [Questionnaire](#) | [ODP](#) | [Inventory](#) | [SO](#) | [SOR](#) | [SQL](#) | [ESR \(BETA\)](#) | [Sales Areas](#) | [Sales Activity](#) | [Sales Activity2](#) | [SFR](#) | [SOR](#) | [SQRL](#) | [SQE](#) | [MIM](#) | [Reports](#) | [KPI](#) | [CCR \(ALPHA\)](#)
[Home](#) | [By number](#) | [Search](#) | [Reports](#) | [Maintain Extranet Users](#)
[General](#) | [CRT & Roles](#) | [Log](#) | [Edit](#)
[Add](#)

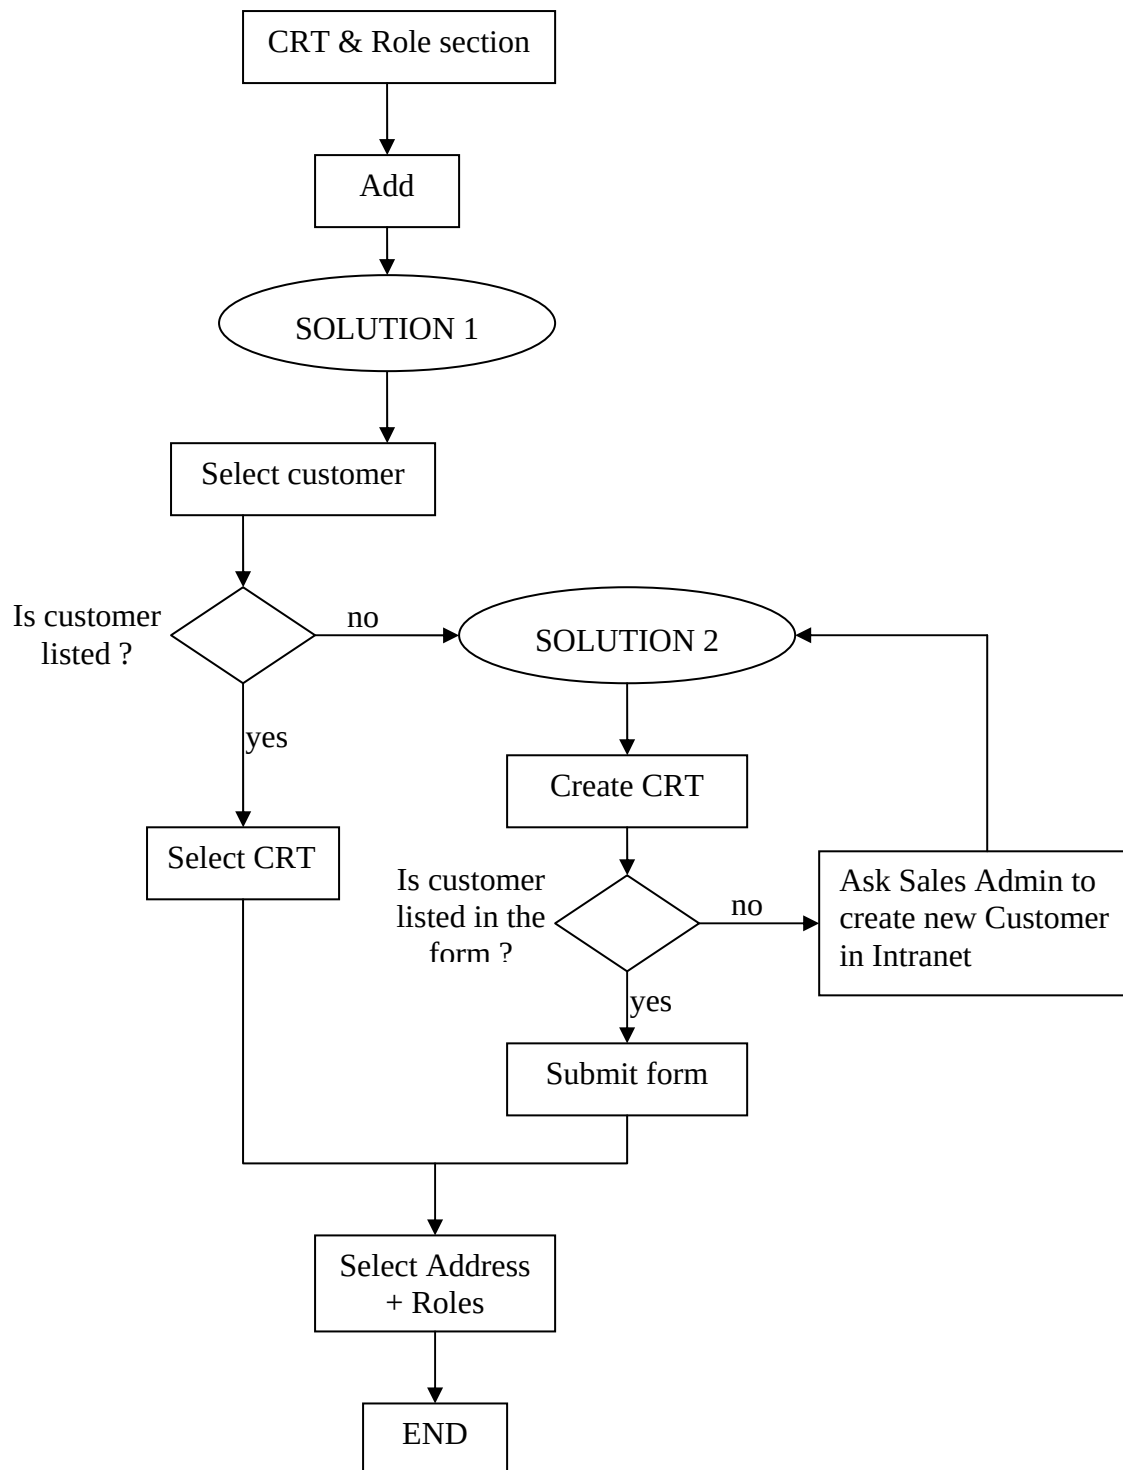

Customer Relationship Team and Roles

#	Customer Name	CRT#	ERP Cuno	ERP#	Sales Representative	Parts Representative	Services Representative	SPH location	Service location	Role	Address	Edit	Delete
1	AIR FRANCE (AF)	1258	AF1002	540	Denis BERNARD	David ZIEGLER	Frédéric SILVA	Montlouis - Parts	TLD EUR	role_ST			
2	AIR FRANCE (AF)	1257	AF1001	540	Denis BERNARD	David ZIEGLER	Frédéric SILVA	Montlouis - Parts	TLD EUR	role_buyer			

NOTE:

You will still be able to update the delivery and the role once you have created an entry. But if you choose the wrong CRT from the beginning, you will need to delete the line concerned under the CRT & Roles section (like bellow).

Summary:

Upgrade the contact to a extranet user:

The contact, in person, will need to go to the www.tld-gse.com partner section to submit a request. Then a sequence will be created to MIS and will go through approval to Sales Admin, EVP and the Chief Executive Officer of TLD. Once approved, an email with all details will be sent to this person.
