

Reaching new heights

Trimester Meeting Dec 17, 2010

Superior GSE and Service

- Status of Our Business
- Status of Operations
- View From the Group - TLD Core Values
- Engineering Projects
- Recent Significant Wins
- Forecast
- Summary

Agenda

- Financial Performance (EOM NOV)
 - Sales (Volume)
 - 41.5M vs. 43.0M Budget
 - Income (Profit)
 - 3.6M vs. 4.265M Budget
 - Sales are slightly behind budget, but Income (Profit) is far behind Budget
- EOY December Forecast
 - Sales 109% Budget
 - Income 98.5% Budget
- Backlog
 - 7.17M EOM NOV
 - 6.5M EOM DEC (Projected)

Legend: Budget (M) Actual (M) Forecast Ratio

Legend: Backlog Bookings Sales Poly. (Bookings)

Status of Our Business

Booking History

- Safety
 - Nine injuries this year
 - Incident rate of 11.61, Industry standard = 5.0, our goal is ZERO
 - For current work force @ TLD-ACE, 1 injury = Industry Standard
- Ways to Improve your Safe Work Habits
 - Seek Cleanliness – Avoid Clutter
 - Eliminate trips and falls
 - Improves efficiency
 - Fall Protection System for Work on top of Units
 - Eliminate risk of falling
 - Don't Take Risks
 - Don't lean from ladders, don't take shortcuts

Safety

- Perceived Quality is the apparent quality of our product to an observer
 - Our units perform exceptionally well – in nearly all cases better than our competition
- However, the judgment of our unit quality is made by many people that are not familiar with how well our units operate – this is Perceived Quality
- Items that impact Perceived Quality
 - Fit & Finish
 - Smooth Paint Finish
 - Panels that Fit Well
 - Consistency of Production
 - Each unit looks just like every other
 - Wire Routing neat, organized, well supported
 - Hydraulics routed cleanly, held in place well
 - No Corrosion
 - Rust free panels
 - High quality hardware
- You are the SINGLE MOST IMPORTANT PART OF OUR QUALITY SYSTEM
 - Good Work by you makes good quality product
 - Good Work by you identifies poor quality materials
 - Good Work by you ensures our data packages are complete and accurate

Quality

The Solution –

- Improved Workmanship
- Improved Design
- Improved Vendor Quality

This is something we can all
make better

Zurich ACU-802 July to Nov 2010

- 2010 has been a challenging manufacturing environment
 - Periods of low demand followed quickly by heavy demand
 - Large quantity of unusual units
 - Slow Supplier response to our increased volume
 - Customer demand for fast lead times
- Need to continue to drive reduced cycle times to remain competitive
- Need to drive labor cost from our units
- We must continuously improve our productivity (our competition is....)
 - Essential to reach 2010 profitability goals
 - Essential to minimize cost growth and stay competitive
 - Essential to help us reach our RONCE objective

Efficiency & Productivity

- Quality is important in all positions – not just manufacturing
- TLD WIN is suffering from Poor Perceived Quality
 - Visual appearance of the units upon receipt
 - Rusty panels/bolts/running gear
 - Quality of simple components
 - Switches, displays
 - Technical Manuals Quality
- Each of us has deliverables, some to external customers, some to internal customers
 - We each need to review the quality of our work to make sure we're delivering the highest quality product we can.

- Remember -

**Our competitors are getting better every day –
we must continue to improve to keep up**

Quality

- Productivity and Efficiency are easy to measure in manufacturing
- Improvements in administrative and engineering activities are also important
- Each of us must spend time every week reviewing our tasks, trying to find ways to improve our productivity
 - IT Systems can be created to ease some administrative tasks
 - These systems benefit everyone in the group, not just TLD WIN
- Potential areas for improvement
 - Automatic integration from BAAN to reduce data reduction efforts
 - Improved reporting from BAAN, to make reports easier to use and more useful
 - Repetitive tasks that only take a few minutes can add up to a lot of minutes when all locations are considered
- IT is positioned to implement process improvements we suggest – so think hard and talk with your manager

Productivity & Efficiency

- 2010 Is a Challenging Year for TLD
 - Low sales for 4Q2009 and 1Q2010 created a profit dip that the banks do not like
 - We continue to have strong financing and good support from the investors, but we must sure we are run the business well
- 2011 Is showing strong growth across the group
 - Challenges in the supply stream will be felt
 - Impact of Engine Emissions Changes unknown
- Important Group Projects (Outside of TLD WIN)
 - Navy LLTT – production orders to start soon
 - PFA-50 Loader – Fist Sold to Korea
 - Taxibot – Key Group Project
 - Electric Baggage Tractor
 - Electric Loader New Technology

View from the Group

TLD STRATEGIC GOALS 2011-2013

1. To install durably the TLD Brand as a synonym of quality and superior service to our customers worldwide.
2. To bring value to our customers through innovation as well as product quality and reliability
3. To improve operating conditions in order to reach our quality and support goals while delivering an excellent financial performance

2011-2013 Goals

- ASU Control System Improvements
 - Testing underway, good development process with good cost control
- ACU-802-HE
 - Demonstrated successfully to AF
 - Working to sell first three units to AF in January for delivery in April
- Self-Propelled Truck (SPT)
 - Parts from other TLD rolling Unit
 - Optimized for carrying ACE units
 - Cheaper than commercial chassis, with profit for TLD
 - FAST FAST FAST Project – the AF units will be sold on these chassis
 - Conceptual design done, but no details!

Engineering Projects

- Qatar Airlines
 - 6 x GPU
 - 8 x 808
- Avia Partner
 - 6 x GPU
- RAAF
 - 3 x 804
 - Possible 14 x 804
- Azul
 - 5 x GPU
- Saudi Demo
 - 808 + truck
- Military
 - 2 x LUC (10 More coming!)
 - 1 x 814 Korea

• Why do We Win or Lose Orders?

- ★ Price/Value Proposition
- ★ Competitive Discounts
- ★ After Sales Support
- ★ Build Quality as Received
- ★ Historical Experience with TLD products
- ★ Lead-Time/Delivery commitments
 - Sales Team Relationships

★ Our Actions That Impact Our Sales

Recent Significant Wins

- RONCE
 - YTD Performance > 25%
 - We are on track for a full payout, but we must continue to work to meet our budget
 - Our Contributions
 - Maximize Income by minimizing costs
 - Don't waste anything
 - Work efficiently
 - Improve quality to reduce cost of rework and warranty
 - Minimize Capital
 - Move units through production and test quicker
 - Ensure inventory quantities are correct – only buy what we need
 - Maintain our equipment so we don't have to spend money on repairs or replacement

Your Daily Choices Impact this Bonus!

RONCE Bonus

- 2011
 - ~20% increase in revenue
 - Income Flat
- COST CONTROL
 - We must control costs at every position
 - Manufacturing
 - Engineering
 - Procurement
- If we do not make changes, we will not improve
 - Find the savings!

2011 Budget

- 2010 has been a challenging year for TLD WIN
 - 3.35M Average/Month – Jan-Jun
 - 4.4M Average/Mon – Jul-Dec
- 2011 Shows Strong Growth
 - 4.5M Average/Mon
- Quality must continue to get better
 - Customers remember poor quality – it will influence their next purchasing decision
 - YOUR ACTIONS ARE IMPORTANT – MAKE THEM COUNT!
- COST is our enemy
 - When our costs increase, our profit decreases, and our RONCE decreases
 - Fight vendor cost increases
 - Improve efficiency in production and engineering
- Engineering projects pave the way for future growth – they must be supported well!

**Every action we take impacts the company and ourselves –
Make your impact Positive!**

Summary
