

Reaching new heights

Trimester Meeting June 11, 2009

Superior GSE and Service

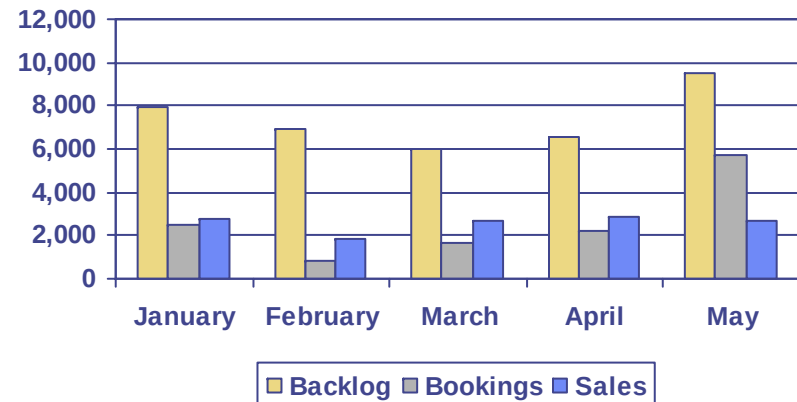

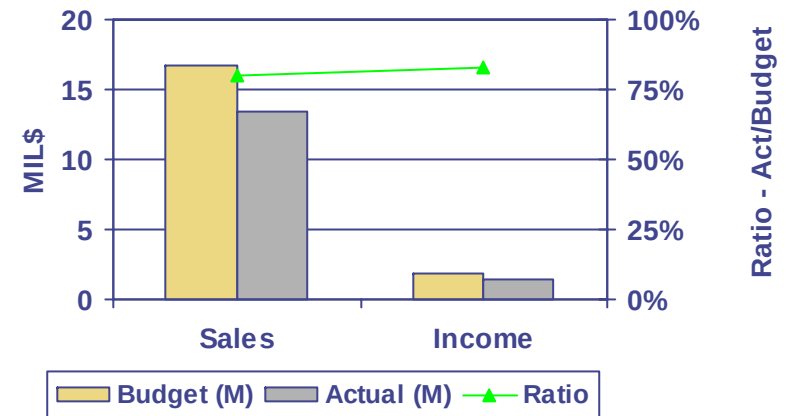

- Status of Our Business
- Status of Operations
- View from the Group
- TLD Green Products
- Engineering Projects
- Recent Significant Wins
- Prospects
- Forecast
- Summary

Agenda

- Financial Performance (EOM May)
 - Sales
 - 13.4M vs. 16.7M Budget
 - Income
 - 1.5M vs. 1.8M Budget
 - Huge Contributions by:
 - S-MPU
 - 22 VADO 802's
- Backlog
 - May reversed decreasing trend
 - 5.7M Bookings

Status of Our Business

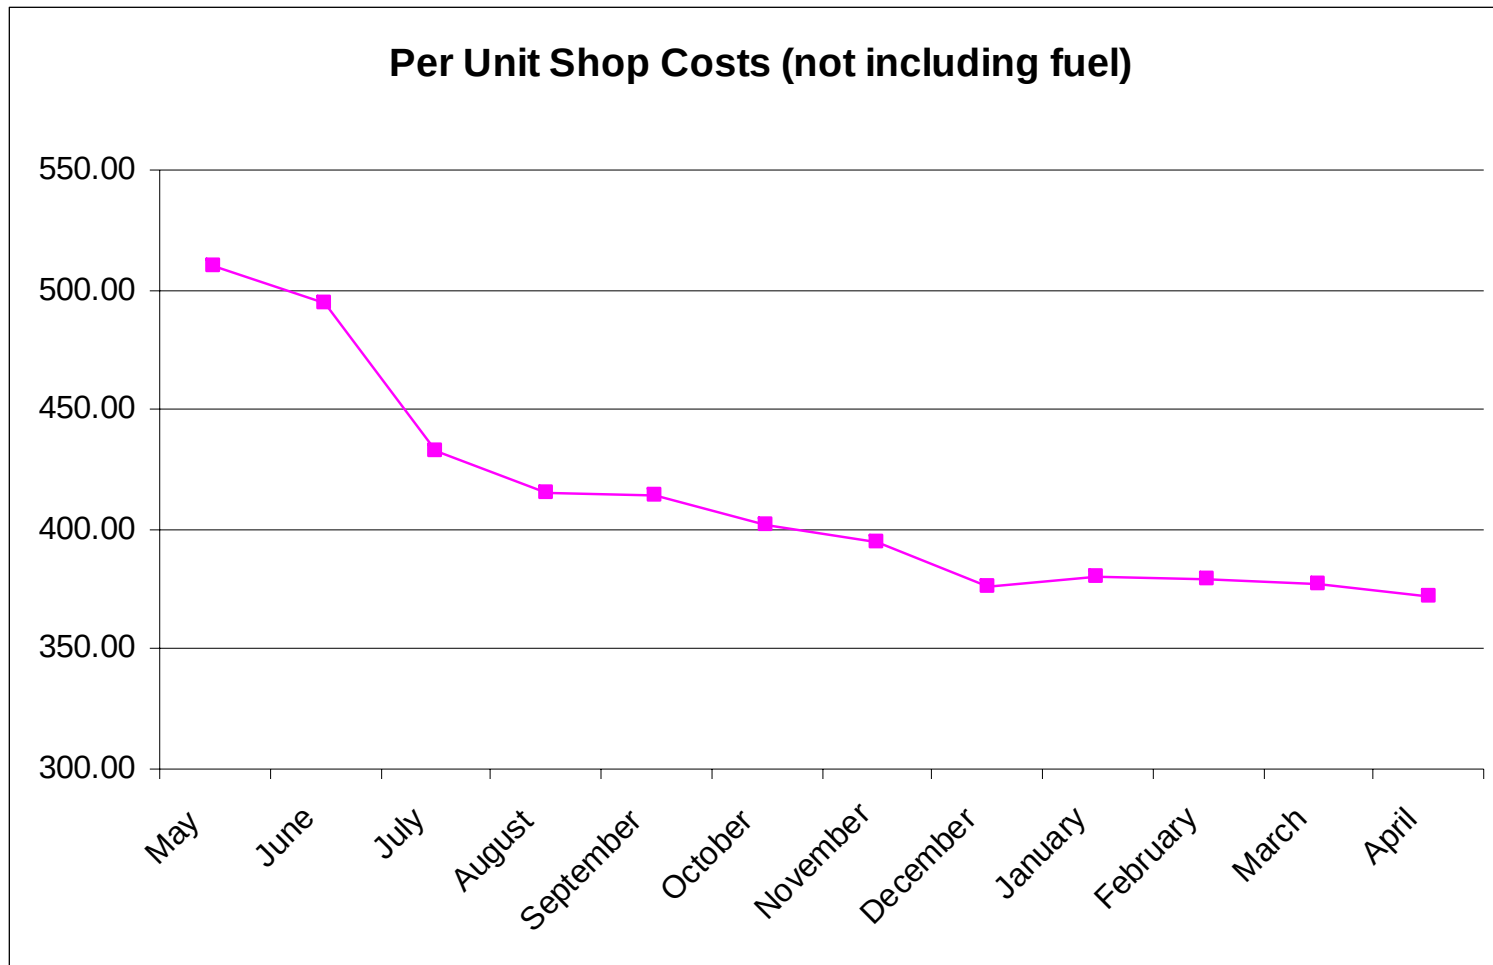

- Safety
 - Two injuries this year
 - Incident rate of 6.8, Industry standard = 5.0, our goal is ZERO
 - For current work force @ TLD-ACE, 1 injury = Industry Standard
 - 115 days without a recordable
- Quality
 - Fewer defects noted at test
 - Impressions of quality
 - Appearance
 - Initial defects
 - Long term durability
- Efficiency & Productivity
 - Significant improvements made
 - Productivity dropping as work slows
 - Need to continue to drive reduced cycle times to remain competitive

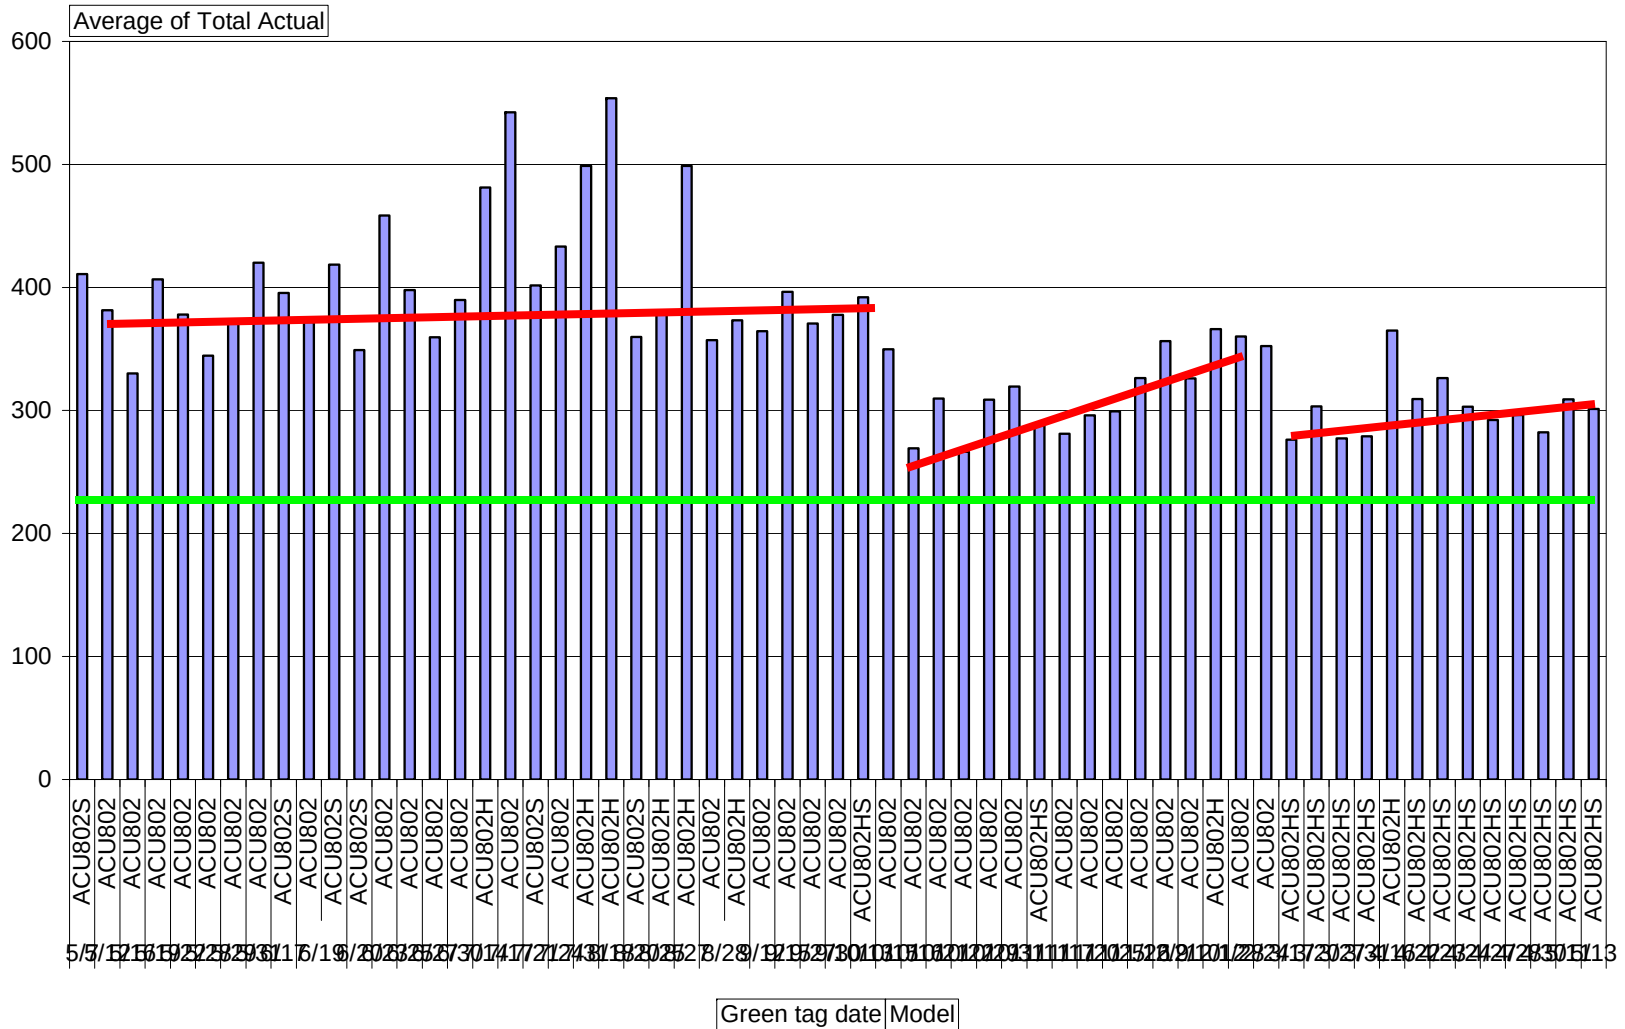

Safety, Quality and Productivity

General Shop Costs

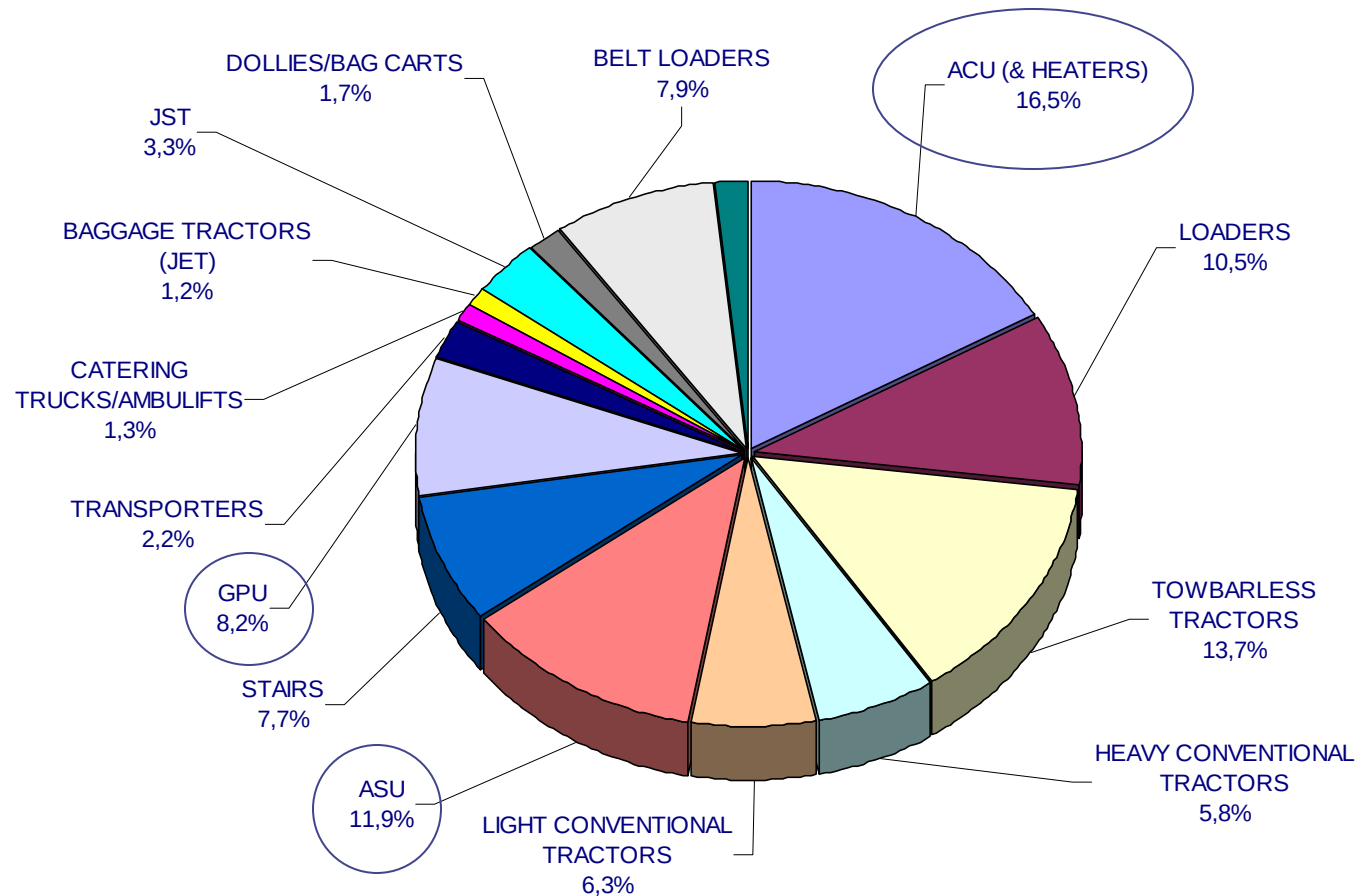

Type 802

802 Production Hours

2008 TLD GSE margin contribution by product

View from the Group

- Total Revenues End of March = 50.4M€ (1% Behind Budget)
- Order Intake = 29M €
 - 43% below 2008 level

From the Chairman

We are obviously in a very deep crisis, which may last another year.

At the beginning of the crisis, TLD has taken the decision to maintain its engineering, support (after sales, parts) and sales forces intact, in order to continue to provide a good support to its customers, and to create tomorrow's products. Our ambition is to exit this crisis stronger than before.

But this strategy has a cost, and it imposes us to be very cost conscious, to be aggressive commercially (and to treat each quote with much care, as our competitors are hungry too), to generate service revenues to offset partially the cost of our service network.

We see no reason at the present stage to change strategy, but the depth of the crisis requires everyone's efforts, and creativity, in order to make more with less.

View from the Group

- TLD Green Product Designation
 - Environmentally friendly products produced throughout group
 - In Windsor
 - ACU-902
 - Bottle Jet Starters
 - Low-TCO GPU
- New Logo to be used on units and in print

TLD Green

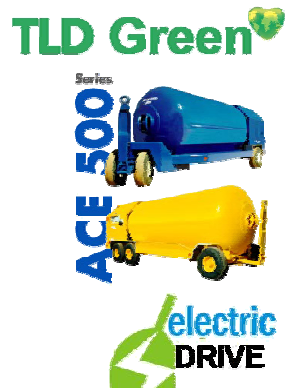

GREEN, CLEAN and Energy
EFFICIENT

TLD offers a complete range
of **Green, Clean and Energy
Efficient GSE**

Equipment availability

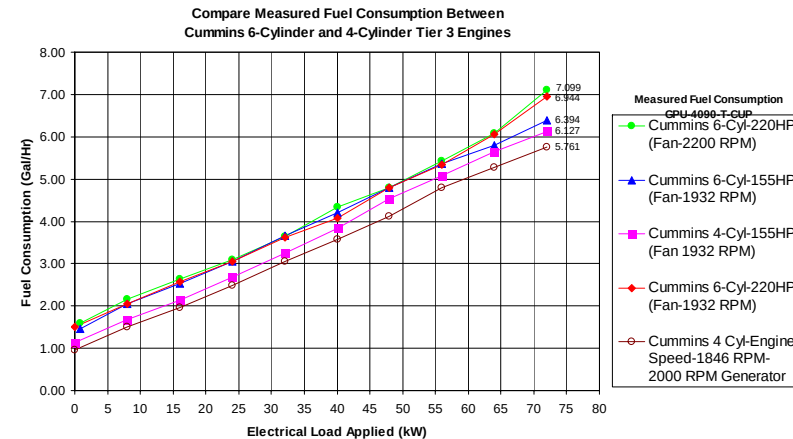

- Wide-body Electric Air-Conditioner targeted for European market – focus on energy efficiency and noise control
- Project Status
 - Excellent progress, holding close to original schedule
 - Unit performs very well, meeting or exceeding design parameters
 - Noise testing not complete
 - Control system operates well, big risk item mitigated
 - Build Quality is good
 - Design issues with sheet metal being reworked
- Demo Plans
 - Demo at Airbus confirmed
 - MUST be ready to ship 6/26

Projects – ACU-902

- Fuel Efficient GPU targeted to customers focusing on fuel costs
- Project Status
 - Slow but steady progress
 - Units exhibiting better than expected fuel savings – about 0.5 GPH over normal operating range
 - GPU pays for itself in fuel savings over 10 years
 - New generator design for 1846 RPM operation
 - Installed and tested satisfactorily
- Demo Plans
 - UPS eager to test one or both demos
 - Other customers being offered
 - Likely to sell without demo to most

Projects – Low-TCO GPU

- CAT GPU
 - Project put on hold to allow Low-TCO GPU project to progress faster
 - Restarted recently
 - Important alternative to Cummins – keeps the pressure on Cummins pricing for this application
- ASU Improvements
 - Project on hold due to AA Lav Truck opportunity, recently restarted.
 - Focusing on Trim Valve performance first, control system improvements second
- ACU Improvements
 - Project on hold due to ACU-902 project
 - Expected to restart 2nd Half 2009
- ACU-902 Narrow Body Electric ACU to compliment ACU-902 product
 - To be worked immediately after ACU-902
 - Significant product for Europe – need to continue fast track methodology

Projects - General

- Qatar Airlines - \$2,500K
 - Three 400 PPM ASU on trucks
 - One 270 PPM ASU on truck
 - Four ACU-802 on Trucks
 - Five GPU-4140
 - Four GPU-4180
- TAM Airlines - \$816K
 - 22 GPU-4120
- Allegiant Airlines - \$844K
 - 20 GPU-4090
 - 4 ACU-302
- US Navy - \$1,715K
 - 11 ACU-802
- LMCo - \$726K
 - 3 LCU

- Why do We Win or Lose Orders?

- ★ Price/Value Proposition
- ★ Competitive Discounts
- ★ After Sales Support
- ★ Build Quality as Received
- ★ Historical Experience with TLD products
- ★ Lead-Time/Delivery commitments
 - Sales Team Relationships

- ★ Our Actions That Impact Our Sales

Recent Significant Wins

- American Airlines
 - Not selected as source for GPUs, big disappointment
 - Selected source for ACU – expect good sales in 2010
 - Lav Truck – delayed by AA, not clear on their plans today
- FEDEX
 - 3 ASU-600-400 on order already
 - Orders expected summer 2009
 - 8 ASU-600-270
 - 18 ACU-302
- ADAS Airlines
 - 5 ACU-808
 - 6-140KVA
- US Navy
 - Small Shipboard Tow Tractor – custom design for Aircraft carrier
 - Stringent program we're pursuing to bring volume into factory
 - Challenges all parts of the organization

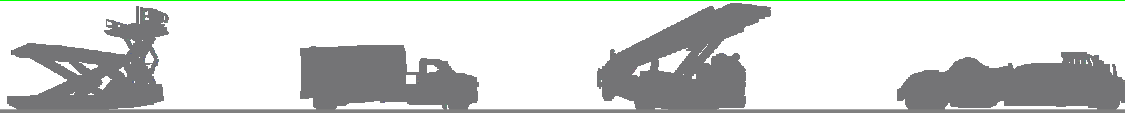

Prospects

- RONCE
 - YTD Performance > 25%
 - Excellent results considering our challenges
 - The rest of the year is still ahead of us
 - Our Contributions
 - Maximize Income by minimizing costs
 - Don't waste anything
 - Work efficiently
 - Improve quality to reduce cost of rework and warranty
 - Minimize Capital
 - Move units through production and test quicker
 - Ensure inventory quantities are correct – only buy what we need
 - Maintain our equipment so we don't have to spend money on repairs or replacement

Your Daily Choices Impact this Bonus!

RONCE Bonus

- Summer 2009
 - Today, we are fully booked through the end of July
 - August will fill-in with orders that are still trickling in
- Fall & Winter 2009
 - It is unclear if this sudden surge in business is a “bump” or a turn-around.
 - We’ll know better at the end of the summer what the fall looks like
 - Expect Winter 2009-2010 to be very light sales
- 2010
 - Most recent projection show a late 2nd quarter recovery, but no one knows

Forecast

- Focus is the key to our success
 - We need to be the best we can be every day
 - We need to make the most money on every transaction every day
 - Eliminate waste
 - Improve efficiency
 - Reduce Inventory
 - Improve our products

**Every action we take impacts the company and ourselves –
Make your impact Positive!**

Summary
